## Specification & Cost comparison

Aircraft	Cost	Max Cruise speed in knots	Useable load in kg	Min. Runway required in m	Max Range km at 75% power	Climb rate ft/min	Kit/plan Only	"/16 sub-kits	Notes
Cirrus SR22 turbo	7 600 000	213	571	460	1480	1200			
Sling 4 (Factory build)	1 700 000	120	450	213	1400	750			
Aero Canard SB Rotary Turbo self built	880 000 + 1500hours	190	450	433	1800	1200	600 000	37500	Estimate based on R100 000 MGL avionics, R50 000 paint, R30 000 electrics and inside, R100 000- Rotary automotive conversion
Aero Canard SB Rotary Turbo Quick option self built	1 183 500 + 500hours	190	450	433	1800	1200	863 500	53968.75	Estimate based on R100 000 MGL avionics, R50 000 paint, R30 000 electrics and inside, R100 000- Rotary automotive conversion
Aero Canard SB Rotary Turbo Quick option AMO built	1 340 000	190	450	433	1800	1200	863 500	53968.75	Estimate based on R100 000 MGL avionics, R50 000 paint, R30 000 electrics and inside, R100 000- Rotary automotive conversion &
Aero Canard SB UL New aircraft engine Quick option AMO built	1 800 000	190	450	433	1800	1200	863 500	53968.75	Estimate based on R100 000 MGL avionics, R50 000 paint, R30 000 electrics and inside, R450 000- New UL Aircraft Engine & AMO 500 hours at R300/hour
Cozy MkIv Rotary Turbo	500 000 + 2500hours	200	450	433	1800	1300	10 000		Plans build with local material and everything self done
Aero Canard FG version	SB price + R113 000	210	410	433	1800	1200			
Aero Canard RG version (Full Retractable gear)	SB price + R388 000	210	410	433	1800	1200			
Aero Canard SX version (Front Retractable gear)	SB price + R388 000	210	410	433	1800	1200			

**Note! All prices are budgetary estimates in SA Rand and may differ depending on exchange rate and actual courier/transport costs**
